

No Sew Fleece Blanket for Babies and Toddlers

Materials Needed:

- Sheets of fleece fabric

Instructions:

The size of the blankets can vary but a good size is 40"x30". Your finished product will be about 10-inches smaller than the fabric you start with, so fleece sheets should be around 50"x40". If it's a few inches smaller or bigger that will be fine.

Step 1: Choose the fabric You will need two coordinating pieces that are the same size.

Step 2: Line up the two fabric pieces right sides facing out.

Step 3: Trim to the same size.

Step 4: Cut a 4-inch square from each of the four corners.

Step 5: Cut fringe on all four sides of the blanket. Cut through both layers of fabric at the same time. Fringe pieces should be a little wider than the width of your finger. Cut in from the edge 4 inches.

Step 6: Leave your blanket laying flat on the surface, with all fringes lined up. I find it easier to start tying from the left and work right, going around the blanket. If you are left-handed, you may find it easier to start on the right and work left. These knots are called balloon knots... tie them just like you would if tying off a balloon! You can also tie a knot like you would make with a shoe lace.
